## Bracelet size guide

---

The steps below will help you choose the right size for bangles/closed bracelets. They concern bracelets made entirely out of metal and not those made partially of chain or cord.

### Bangles / closed bracelets:

For bangles/closed bracelets, you must measure your hand with a measuring tape, as shown in the photo below.

- **Bend your fingers inwards** so that all your fingertips touch each other and fold the measuring tape all over your hand, around the base of your thumb and passing by the bones that “stick out”.
- **Based on the length of the measuring tape**, find your size below.

**Note:** *If you cannot find a matching size, please fill in the “comments” section at check-out, the exact length you measure in cm and we will prepare your bangle accordingly.*

<b>S</b> (small)	19.4 - 21.4 cm
<b>M</b> (medium)	21.5 - 23.3 cm
<b>L</b> (large)	23.4 - 24.8 cm
